

Asset Management and Sales Platform

Intengo offers consulting and training services to ensure sustainable efficiency and effectiveness in your sourcing and procurement processes.

Increase your reach

You could reach more ambitious customers and increase participation with Intengo systems and support. Also it is easy to publish all your assets on your corporate web site with a smart design.

Better value for your assets

If there are more than one customer, online auctions will help you for reaching higher prices. The system will include online auction module in standard and screens are user friendly for your customers.

Quick execution

Welcome to the fastest way of selling your assets with their full value on time. Feel comfortable, save time and earn money with the best way of managing your assets with Intengo.

Transparent transactions

It is simple to define and register the procedure - also clear and obvious for explaining. This will help you to own a more transparent way and auditing the process is going to be easy understandable.

“We are using Intengo Asset Management and Sales Platform smoothly. I think this is the first time in Turkey that real estate is completely being sold from internet. This system contributed our corporate image and trustworthiness positively. On the other hand our sales become easier and we saved from labor force.”

Devrim Kebabci
